GoGirlGo!

GRANT PROGRAM

2005 Application and Guidelines

GoGirlGo! Grant Summary

The goal of the GoGirlGo!® Grant and Education Program is to maximize the use of sport/physical activity as an educational intervention and social asset in order to enhance the wellness of girls as they navigate between childhood and early womanhood. GoGirlGo! is dedicated to the development and funding of girls' sports/physical activity programs that combine athletic instruction and programming with the delivery of educational information by qualified adults aimed at reducing risk behaviors that threaten the health and social advancement of girls in third to eighth grade.

The GoGirlGo! educational curriculum is available free of charge from the Women's Sports Foundation. The materials come in the form of a kit that includes a guide and journal for each girl and adult leader guides. The curriculum uses personal stories of champion female athletes like Tamika Catchings, Vonetta Flowers and Mia Hamm sharing their experiences with important issues such as self-esteem, body image and drugs. There is also expert information on each topic.

Please review the sample educational curriculum before ordering or applying for grants. Visit www.GoGirlGo.com or call 1-800-227-3988 for sample materials.

Organizations, agencies and schools that agree to participate in the GoGirlGo! educational curriculum become eligible to apply to the GoGirlGo! Grant program, which provides grants to support girls' sports/physical activity programming.

Grant Amounts

A total of \$200,000 will be awarded. In 2004, the average grant awarded was \$7,500. The funding period for this program is April 1, 2005, through April 1, 2006.

GoGirlGo! Grant Guidelines

GoGirlGo!® grants will provide funds to support sports and physical activity programs seeking to add new or expanded program participation opportunities for an under-served population of girls, particularly economically disadvantaged girls and/or girls from populations with high incidences of health-risk behaviors.

Funds requested may be used for athletic equipment, supplies, facility rental, league/tournament fees, travel, coaching, scholarships and/or program administration expenses. Funds may only be used for girls' sports/physical activity programs.

Eligibility

- ▶ Demonstrated ability to deliver girls' sport/physical activity programming to girls in third to eighth grade.
- ▶ Delivery of a minimum 8-week sports/physical activity program with preference given to organizations working consistently with girls throughout the year.
- ▶ Program leadership administered by experienced and committed adults.
- ▶ 501(c)(3) program status or nonprofit status.
- ▶ Commitment to implement the GoGirlGo! educational curriculum including completion of a post-project attitudinal survey. The GoGirlGo! curriculum may be implemented following receipt of a grant. The educational materials must be ordered separately, by calling the Women's Sports Foundation at 1-800-227-3988 or visiting www.GoGirlGo.com.

The Foundation would like to thank our national sponsors Advanta, Gatorade, Moving Comfort, a division of Russell Corporation, and Wm. Wrigley Jr. Company for their support of GoGirlGo!

The McLean County Juvenile Detention Center is pleased to submit this request. We look forward to working with the Women's Sports Foundation in an effort to provide young women the knowledge and ability to lead more productive and health oriented lives while creating a lasting bond with the community.

Our proposal requests \$4646.65 to help facilitate a new leisure and recreational program that will correlate with the existing one. The McLean County Juvenile Detention Center is currently seeking a partnership with the Bloomington Parks and Recreation Department (BPRD) to create an outreach program. This effort will require several representatives from Bloomington Parks and Recreation Department to facilitate weekly groups with the female residents at the Juvenile Detention Center.

In 2003-2004 the McLean County Juvenile Detention Center came in contact with 261 females ranging from 10 to 16 years of age. Of these residents the majority are from economically disadvantaged backgrounds and are engaged in behavior that is detrimental to their health and well being. We would like to implement a program that gives direction and a sense of self-worth to each child that passes through our doors. By closely working with the Bloomington Parks and Recreation Department our youth can develop a new life style that they can continue once they have been reintegrated into the community.

Since the Bloomington Parks and Recreation Department currently offers a variety of leisure and recreation programs for teenagers, it seems logical to introduce or reintroduce females to these programs. In addition, the goal is to create an interest along with educating youth on the potential benefits of participating in leisure and recreational services provided by BPRD. It is important for the young girls to have a relationship with the staff to draw them into the community setting. This is why it is essential for BPDR staff to facilitate at least one group weekly within our facility.

Qualifications and Staff

The McLean County Juvenile Detention Center currently has a staff that includes a Certified Therapeutic Recreation Specialist, a Physical Education Major, and a Certified Personal Trainer. Bloomington Parks and Recreation will be adding a Certified Parks and Recreation Professional and an under-graduate majoring in Family Sciences. All the employees at the Detention Center have four-year degrees that vary from Art Therapy to Criminal Justice Sciences to Social Work. The Juvenile Detention Center is currently working with Illinois State University in an collaborative attempt to have an intern each year that is pursuing a degree in Therapeutic Recreation.

Program

The Bloomington Parks and Recreation Department have devised an eight to ten-week program that will challenge the resident's physical capabilities as well as their mental capacity. Each hour-long session will begin with a 10-15 minute warm up that comes from the Game Generator format. This will encourage teamwork, leadership, and allow them to have a few minutes to break the ice with newcomers. Week one activities will consist of Team Games and brainteasers. Xerbands and Fitballs will be used during week two in order to perform proper stretching exercises. In week three they will be allowed to express themselves by creating a Tag Board person based on their personal interests. An obstacle course will be used in week four to measure speed and agility. They will be creating Raffia Baskets during week five. Week six should be challenging. They will focus on the art of juggling to develop better eye-hand coordination and concentration. Week seven will get them out of the gym and into the classroom for some arts and crafts and collage making. Week eight will be a total body workout when the girls challenge themselves on the Circuit Training stations. Due to an ever-changing population, that can fluctuate anywhere from zero to fifteen residents in a matter of months, some of the events may not be feasible so there is a list of alternative activities. Indoor soccer, football passing, wallyball, mini disc golf, kickball, and homerun derby may be substituted for any of the programs if need be. These activities will also complement the current programs that exist at the Juvenile Detention Center, which includes some of the following: volleyball, basketball, badminton, weight training, and the Presidential Fitness Challenge. The GoGirlGo! Curriculum was unavailable at the time of this proposal. Once the material is obtained it will be reviewed and implemented in a timely manner.

Community

McLean County is home to more that 150,000 people most of who live in Bloomington-Normal. Bloomington-Normal is the halfway point from Chicago to St. Louis. The headquarters for State Farm Insurance Companies, Illinois Wesleyan University and Illinois State University along with numerous other employment opportunities are located in Bloomington-Normal. The economy thrives on insurance, education, agribusiness, healthcare, and industry. The Central Illinois Regional Airport is one of the fastest growing airports in the United States over the past seven years. The outlying

communities are agriculturally based and most have a population of under 3500 people. Beneath all the positive aspects lies a different demographic. Over 23% of the people in the area have a total yearly income of less than \$25,000. Of those employed in the area 24% are blue-collared workers. Over 30% are renting properties.¹ So as the cost of living increases 2-3% annually people on the lower half fall further and further behind. The overwhelming majority of girls that enter the detention center are from these families, many of which are single parent homes.

Health Risks and Benefits

For many of these young women the Juvenile Justice System is only a minor concern. They enter into the system for a variety of offenses ranging from runaway and truancy to major crimes, many of which, are side effects of negative behavior associated with drug and alcohol use. Girls as young as ten are becoming sexually active and experimenting with drugs. The implementation of a program designed specifically for the young women in our facility and community will produce numerous positive rewards. We have the ability to reach a wide number and variety of girls in our community. This is a time frame in a young person's life that they experience overwhelming amounts of obstacles and hardships. Self-esteem issues, obesity, loss of competitive edge, mental and physical abuse, pregnancy, and Sexually Transmitted Diseases are only a few of the problems that young girls face today. By having a program that tries to eliminate some of the unnecessary obstacles we believe that our girls can have a positive future. We can instill the sense of self-worth and rebuild their competitive nature. Our girls will have the Bloomington Parks and Recreation Department introduced as a resource for personal leisure and recreational enjoyment as well as the opportunity to gain help with probation requirements or help fulfill community service needs. Also, we are attempting to create employment and volunteer opportunities with in the Park District for those who successfully complete the program and show the drive and desire to give back to the community.

Current Programs

The residents at the detention center participate in mandatory Therapeutic Recreation Monday through Friday. They are encouraged to participate during the skill portion of the program. The activities include basketball, volleyball, kickball, ping pong, obstacle course, whiffleball, weight training, badminton, and the Presidential Fitness Challenge. Bloomington Parks and Recreation will be implementing group once a week. In addition, they will conduct programs outside of the gym. Gender specific programs are held on a weekly basis to allow the female residents the opportunity to speak freely about concerns and issues without the fear of embarrassment and ridicule from the male residents. The youth also participate in Art Therapy and Life Skills Programs weekly. The Art Therapy program encourages creative thinking and allows for a positive release of negative thoughts or emotions. Life Skills class teaches daily living as well as prepares the residents for educational or vocational opportunities.

Budget

The McLean County Juvenile Detention Center has a fund pool of \$1500. The Therapeutic Recreation Department, Gender Specific Program, Life Skills Program, and Art Therapy Program share these funds. In the center's ten-year existence many sacrifices have been made for the greater good of each program. Year to year a collaborative effort is made to determine which area has the greatest needs. Based on this information each program gains strength slowly over the years. With total funding of the proposed program coming from the Women's Sports Foundation all areas will have the opportunity to thrive in the upcoming years.

CASA Report September 2004

The CASA Statistics for September:

1 Volunteer Assigned
1 New Child Assigned, age 11

The Cumulative CASA Statistics:

21 Cases Assigned to Date
68 Active Volunteers
150 Children Served
7 Cases Awaiting Assignment
21 Hearings Attended
18 Court reports filed

Program Updates:

The CASA office is preparing this month to teach **two on-going 40-hour** training sessions, one class in McLean County and one class in Livingston County. We held Informational meetings on September 8th, and 12th respectively. We have 9 individuals in the McLean County class, and 6 individuals in the Livingston County class. The classes are from September 27th, to October 30th. We believe our increase in recruiting efforts have contributed to the larger number of class size in both counties.

We held a "Movie Night" In-Service on September 1, for continuing education. The movie was called "Love and Diane". This movie is very applicable to our volunteers' "role" at CASA. The movie followed a child victim in foster care, due to her mother's continual neglect and use of cocaine, despite numerous drug treatment experiences. Although the child did not have a CASA to speak for her, one special Social Worker helped her. The In-Service was well attended.

As of this writing, we just received the 6 additional referrals from the Honorable Judge Ron Dozier, so we will be assigning them soon. One of the cases has 6 children! Our office is working diligently to get these to our awaiting volunteers.

The CASA office has submitted a **Self-Assessment Quality Assurance** report, to ensure we are in compliance with National CASA Standards. This was an arduous process and we are waiting the results of this assessment.
